

Part C 2013 Strand Report

Ionia ISD

The Strand Report provides service areas with a snapshot of how they performed on the indicators reported in the Annual Performance Report (APR). Throughout the year, service areas see small updates to the Strand Report, but each April the report is overhauled with data submitted by the Michigan Department of Education on February 15, 2013. The Strand Report reflects data reported in **FFY 2011** (federal fiscal year 2011, which is data collected between July 1, 2011, and June 30, 2012).

This report is organized by indicator. To learn more about a particular indicator including its definition, measure, data collection dates, and data sources, click on the indicator name (e.g., Timely Service Delivery) to be taken to the [CIMS Web site](#).

Review of Data: Compare your local performance to the state target for each indicator. A “thumbs up” in the “Target Met?” column indicates that your service area met the state target; a “thumbs down” means you did not meet the target. If additional work is required, click the link in the “Next Step” column to search for your task in CIMS.
